9. Feedback to the conference

- Ewa Alfred would like to collect the favourite songs of the congress, please send them to her

- some people have some problems with English and even don't come to the congress because it's only English. How can we open the workshops for non-English speaking persons?

That needs another think tank about maybe bilingual workshops

- morning prayers with biblical texts strengthen our tradition, singing as well

- we were missing a room to meet in the evening

- maybe it's a good idea to have time to share experiences with other workshops
