Encounter **Time** Life

„TRANSFORMATION“

Time is fluid.
Not only **time** but also **life** nowadays.

Industries grow up and disappear, leaving waste or destroyed nature and unemployed people. Migration changes those, who leave their country and the societies of those countries, where they flee or migrate to.

Norms and cultural patterns change, for example regarding sexual identity – gender. And, of course, this motion of change and transformation does not leave our religions and confessions untouched.

Is it a tidal wave that will come over us and forces us or is there a chance to act, to shape and transform? We will work on Genesis 8, 6 – 9, 17. What about God's transformation in handling his creation? What transformations are we challenged to today by God's covenant with Noah?

You are most welcome to explore these questions in Bibliodrama, excursion, discussion, devotion and encounter!
